

CITY OF OSCEOLA NOTICE

The City of Osceola will be testing the outdoor alert warning system (tornado sirens) on the second Monday of each month at 1:15 P.M.

In the case of inclement weather on the second Monday, we will test on the third Monday. In case of inclement weather on the third Monday, we will test the following month.

The test will last approximately up to 5 minutes.

The Outdoor Alert Warning System will sound in Osceola, when there is eminent danger to the citizens of Osceola. The siren will sound for 3-5 minutes on a continuous blast. The siren will not only sound for the direct threat of a tornado but may also sound for large hail and damaging wind. There is no clear siren. It is encouraged that the public keep themselves current on active weather in the area. Remember, the sirens are called outdoor alert warning system. This warns the public who are outside of their homes that an event is happening, or is about to happen. We strongly recommend that citizens listen to local radio/ T.V. stations.
